- . Using AI

Work Experience

Full Stack Development (Navttc Corvit):

Completed 6 months of intensive hands-on training in Full Stack Web Development, gaining practical experience in designing, developing, and deploying web applications. Worked extensively with HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB to build responsive and dynamic applications. Developed user-friendly interfaces, integrated REST APIs, managed databases, and implemented backend functionality. Practiced frontend and backend development through multiple projects, strengthening problem-solving, debugging, and software development skills while following modern web development practices.

Truck Dispatching(Remote):

Worked as a Truck Dispatcher for 4 months, coordinating loads, communicating with drivers and brokers, tracking shipments, and ensuring timely deliveries. Managed schedules, handled documentation, and provided efficient support to maintain smooth transportation operations and customer satisfaction.
